DETAILED ACTION

Claims 1-12 are pending.

A preliminary amendment had been filed on March 19, 2002 to amend claims 3-6 and 9-11.

However, applicant is required to submit a complete copy of all claims under the current Rule 1.121.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 11-12 are rejected under 35 U.S.C. 102(b) as being anticipated by the compound disclosed in column 1 of Japanese patent JP 06-306264, also note claim 4 of the same.

A compound made by a process is considered as the same as a compound having a same chemical structure unless unobvious and/or unexpected feature(s) can be shown.

Claims 1-10 are allowable due to the novelty and unobviousness of the current process.
